

Postcards in the Special Collections of the Ibero-Amerikanisches Institut (IAI) of the Stiftung Preußischer Kulturbesitz (SPK)“. As of March 24, 2026

The Image Archive and the Papers and Manuscripts Collection of the Ibero-Amerikanisches Archiv (IAI) contain numerous postcards. These include a separate collection of 2,392 postcards, organized by country and designated as the “Postcard Collection” (PKS). These postcards are stored in specially designated archival folders, organized by the year of production and by country.

In addition, there are further postcards in the holdings of the Image Archive as well as in the Papers and Manuscripts held by the Institute, particularly in the bequests of Walter Lehmann (1878–1939), Robert Lehmann-Nitsche (1872–1938), Eduard Seler (1849–1922), and Max Uhle (1856–1949). Starting with these four estates, the postcards in the IAI’s Special Collections are gradually being systematically cataloged and included in the following overview.
